OF THE PRODUCT

DUST POWER

Dust Power the sanding dust suction booth.

The dust suction booth **Dust Power** is indicated for the suctioning and removal of dust from sanding and it is built with galvanized press-folded sheet iron. The main feature of **Dust Power** is the filtration of dust through aluminized polyester antistatic cartridges.

The booth **Dust Power** is equipped with timed self cleaning system of the cartridges with jets of compressed air. The dust jets are deposited in removable trays.
